#### TAKING CONSTRUCTIONTO NEW HEIGHTS

New challenges arise every day and Back Combined is the right construction partner to give each project its solid grounds, building together a strong and confident future, where every challenge can be overcome and every dream fulfilled.

Our commitment is to deliver quality, bringing our experience and expertise to ensure the management and conclusion of the project on time and within budget.

Client satisfaction is our major goal and construction is more than concrete, is about people. We treasure our staff, their competence, and professionalism, protecting them and giving them the best work conditions, safety, and environment. And we treasure our clients, their dreams, and ambitions, making it our compromise to fulfill them.

Since 2006, and thanks to a resourceful, dedicated, and skilled team with unbreakable values of trust and integrity, Back Combined elevates construction, conduct, and performance standards.

We guarantee that our projects leave a mark, building the difference.

# **OUR MISSION**

At Back Combined, construction is a way of building dreams and creating the future. We improve the standards of construction and project maintenance in the vast and competitive market of Kuwait, delivering efficiently diversified services towards total client satisfaction. Our qualified, dedicated, and professional team works in partnership with our clients, building strong human relations based on confidence, trust, and results.

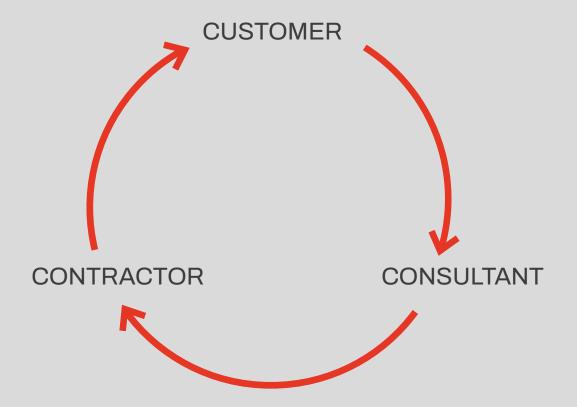

# **OUR VISION**

To be the most innovative and efficient team in the region delivering a Customer-Centric Construction based on the unique approach of 3D's, Dreaming-Designing-Delivering.

# **OUR VALUES**

- Trust
- Innovation
- Excellence
- Efficiency
- Partnership

# **CUSTOMER CENTRIC CONSTRUCTION**

Our work is based on a 3C philosophy that meets a 3D approach. Customer-Centric Construction is the core of our business, focused every day on bringing high-quality standards to each project and bringing total satisfaction to each client.

#### **Dreaming**

The clients dream and we follow. Our construction aims to the infinite, creating new frontiers and delivering new solutions. If you can dream it, we can do it.

#### Designing

We know how to achieve the best results without compromising the dream. Planning, adjusting, anticipating, and creating are all part of our construction process.

#### Delivering

We get it done in time, and we get it done efficiently. We build trustworthy relations based on projects well-executed and global services fully delivered.

# **NEW FOUNDATIONS IN OUR FIELD**

Back Combined sets new standards in work ethics, and Health and Safety policy. Trust, accountability, and reliability are strong guides to our relations with people: our clients, our partners, and our team.

Our clients and partners can rely on our competence, endurance, and efficiency, always bringing professionalism, integrity, and respect for deadlines and costs to each project. We operate under a broad and coordinated Quality Program that ensures that every project is realized under strict norms and regulations, providing the best outcomes.

In all of our operations, we're guided by an established Health and Safety policy, founded on a priority goal to eliminate any personal injuries, occupational illness, and damage to equipment and property, as well as to protect the general public.

Safety is crucial for project success and is never sacrificed in our projects. Our positive and productive business practices depend on our ability to promote Health and Safety, believing that superior professional competence promotes business, reduces costs, and contributes to the continued growth and success of the company.

# REVISION OF THE QUALITY CONTROL PROGRAM

The Project Manager is responsible for the preparation, compilation, review, issuance, maintenance, and revision control of the Quality Program with the approval of the Engineer's representative.

#### **HEALTH & SAFETY POLICY**

#### In all of its operations, Back Combined is guided by an established Health & Safety Policy.

This policy is based on a priority goal to eliminate personal injuries, occupational illness, and damage toequipment and property, as well as to protect the general public whenever and wherever the public comes in contact with or is effected by the company's work.

While the ultimate success of this policy depends upon the full cooperation of each employee, company management and field supervisors are charged with the responsibility of planning safety for each work task to avoid incedents, conditions, and actions that could lead to occupational injuries or illness.

Safety is never sacrificed for production. It is considered an integral part of quality control, cost reduction, job efficency, and contribution to the continued growth and success of the company.
